The impressive pipe organ helps make St Stephen’s a true highlight of our three-river city.

High above the Old Town sits one of the largest fortress complexes in all Europe – the **Veste Oberhaus** which can be discovered at leisure after the walking tour. Accessible via the exterior walls, never conquered, never completely destroyed; the Veste Oberhaus is a prime example of long term historical construction.

We tour to the 900-year-old **Melk Abbey**, an Austrian Benedictine abbey and one of the world’s most famous monastic sites. The impressive Baroque abbey was built between 1702 and 1736 and is the biggest monastery complex of the Austrian baroque period. The abbey’s church, with frescos by Johann Michael Rottmayr, and the impressive library with countless medieval manuscripts and frescos by Paul Troger are particularly noteworthy. A guided tour takes us through the abbot’s chambers, along the emperor’s walk, through the marble hall, the balconies and the library.

Walking grade: Level 3 - The excursion by bus is followed by a longer walk. You may need to climb several stairs.

Celebrate Christmas Eve on board with a festive ambience. Take part in decorating the Christmas tree to the sound of contemplative carols, followed by the magical Christmas dinner on board.

It was a provincial and local government city of the Holy Roman Empire, and an important trade centre, connecting several trade routes. As the city where the Habsburg Emperor Friedrich III spent his last years, it was, for a short period of time, the most important city in the Empire. It lost its status to Vienna and Prague after the death of the Emperor in 1493.

We take a stroll down the main street, which leads to the main square. In addition to the medieval town square in the historic old town and the **Mozarthaus**, you can see the **Renaissance villas**, the old cathedral with the Bruckner organ or the new cathedral. *Visits depend on Cathedral and Mass openings/times.*

Visible from afar is the pilgrimage basilica on the mountain Poestling, the landmark of the town. A modern counterpart are the **Lentos art museum** and the **Ars Electronica centre**, with its striking glass facade offering a diverse play of colour in the darkness.
